

## INTUITION RETREAT FOR WOMEN IN NATURE

The healing power of nature brings us back to our roots. It brings us to our feminine abundance. Nature is in divine harmony in itself. It opens the way to intuition. With intuition exercises, sharing and Gestalt therapy, we welcome the inner knowledge that lies within us as a treasure. Gestalt therapy always provides support where fears and pain, anger and shame arise and the courage for the new requires the healing of the old. Each of the days is dedicated to an element of nature. We experience the power of the elements and how each one - fire, water, air and earth - inspires our intuition in its very own way. You will discover which elements nourish you in particular and how you can strengthen your intuition. We live in the Piccolo Castello di Nottiano ad Assisi, embedded in pure nature in the green heart of Italy: in Umbria.
